

new permit application (see §331.5(b)(5)).

(7) *Documentation of the appeal conference.* The appeal conference is an informal proceeding, intended to provide clarifications and explanations of the administrative record for the RO and the division engineer; it is not intended to supplement the administrative record. Consequently, the proceedings of the conference will not be recorded verbatim by the Corps or any other party attending the conference, and no verbatim transcripts of the conference will be made. However, after the conference, the RO will write a memorandum for the record (MFR) summarizing the presentations made at the conference, and will provide a copy of that MFR to the division engineer, the appellant, and the district engineer.

(8) *Appellant costs.* The appellant will be responsible for his own expenses for attending the appeal conference.

(f) *Basis of decision and communication with the RO.* The appeal of an approved JD, a permit denial, or a declined permit is limited to the information contained in the administrative record by the date of the NAP for the application or approved JD, the proceedings of the appeal conference, and any relevant information gathered by the RO as described in §331.5. Neither the appellant nor the Corps may present new information not already contained in the administrative record, but both parties may interpret, clarify or explain issues and information contained in the record.

(g) *Applicability of appeal decisions.* Because a decision to determine geographic jurisdiction, deny a permit, or condition a permit depends on the facts, circumstances, and physical conditions particular to the specific project and/or site being evaluated, appeal decisions would be of little or no precedential utility. Therefore, an appeal decision of the division engineer is applicable only to the instant appeal, and has no other precedential effect. Such a decision may not be cited in any other administrative appeal, and may not be used as precedent for the evaluation of any other jurisdictional determination or permit application. While administrative appeal decisions lack precedential value and may not be

cited by an appellant or a district engineer in any other appeal proceeding, the Corps goal is to have the Corps regulatory program operate as consistently as possible, particularly with respect to interpretations of law, regulation, an Executive Order, and officially-promulgated policy. Therefore, a copy of each appeal decision will be forwarded to Corps Headquarters; those decisions will be periodically reviewed at the headquarters level for consistency with law, Executive Orders, and policy. Additional official guidance will be issued as necessary to maintain or improve the consistency of the Corps' appellate and permit decisions.

§331.8 Timeframes for final appeal decisions.

The Division Engineer will make a final decision on the merits of the appeal at the earliest practicable time, in accordance with the following time limits. The administrative appeal process is initiated by the receipt of an RFA by the division engineer. The Corps will review the RFA to determine whether the RFA is acceptable. The Corps will notify the appellant accordingly within 30 days of the receipt of the RFA in accordance with §331.7(b). If the Corps determines that the RFA is acceptable, the RO will immediately request the administrative record from the district engineer. The division engineer will normally make a final decision on the merits of the appeal within 90 days of the receipt of an acceptable RFA unless any site visit is delayed pursuant to §331.7(c). In such case, the RO will complete the appeal review and the division engineer will make a final appeal decision within 30 days of the site visit. In no case will a site visit delay extend the total appeal process beyond twelve months from the date of receipt of an acceptable RFA.

§331.9 Final appeal decision.

(a) In accordance with the authorities contained in §331.3(a), the division engineer will make a decision on the merits of the appeal. While reviewing an appeal and reaching a decision on the merits of an appeal, the division engineer can consult with or seek information from any person, including the district engineer.
